

"Practical"
Endocrinology
S E M I N A R

August 15 & 16, 2015 - Lufkin, TX

Explore the (1) Pituitary Gland, (2) the Thyroid Gland, the (3) Adrenal Glands, the (4) Pancreas, (5) the Testes, (6) the Ovaries and more!

Be your very best when your patients need you the very most.

Dr. Wendy Blount

Table Of Contents

Introduction: Practical Endocrinology	-----		In Front of Tabs
Table of Contents	-----		
Abbreviations	-----		2 pages
<hr/>			
PowerPoint Slides - Introduction	-----		2 pages
Housekeeping, Practical Internal Medicine Philosophy		page 1	
Goals, Agenda	-----	page 2	
Section 1: Disorders of Growth Hormone	-----		Red Tab
PowerPoint Slides - Disorders of Growth Hormone	-----		7 pages
Pituitary, Growth Hormone, Failure to Grow		page 1	
Pituitary Dwarfism	-----	page 2	
Diagnostics	-----	page 3	
Treatment	-----	pages 3-4	
Prognosis	-----	page 4	
Alopecia X	-----	pages 4-5	
Growth Hormone Excess	-----	page 5	
Feline Acromegaly	-----	pages 5-7	
Canine Acromegaly	-----	page 7	
<hr/>			
Lab Form - Michigan State Endocrinology Submission Form	-----		1 page
Lab Form - Michigan State Endocrinology Submission Instructions	-----		1 page
Lab Form - Michigan State Endocrinology Reference Ranges	-----		1 page
Section 2: Disorders of Water Balance, PU-PD, Hypodipsia	-----		White Tab
PowerPoint Slides - Disorders of Water Balance	-----		10 pages
Polyuria-Polydipsia and Vice Versa	-----	page 1	
Working Up PU-PD	-----	page 2	
Central Diabetes Insipidus, Primary Nephrogenic Diabetes			
Insipidus, Primary Polydipsia	-----	pages 3-4	

Section 2: Disorders of Water Balance, PU-PD, Hypodipsia - continued

White Tab

PowerPoint Slides - Disorders of Water Balance - continued	-----	10 pages
Secondary Nephrogenic Diabetes Insipidus	----- pages 3-4	
Diagnostics for PU-PD - DDAVP, Plasma Osmolality	page 4	
Diagnostics - Modified Water Deprivation Test	pages 5-7	
Referral for MRI/CT	----- page 7	
Treatment Central Diabetes Insipidus	----- pages 7-8	
Prognosis Diabetes Insipidus	----- page 8	
Treatment Psychogenic Polydipsia	----- pages 8-9	
Syndrome of Inappropriate ADH	----- page 9	
Hypodipsic Hypernatremia	----- pages 9-10	
<hr/>		
Reference Chart - IV Potassium Supplementation	-----	1 page
<hr/>		
Client Information - Diabetes Insipidus	-----	1 page
Client Information - Hydrochlorothiazide	-----	2 pages
Client Information - Desmopressin	-----	2 pages

Section 3: Thyroid Gland

Blue Tab

PowerPoint Slides - Hyperthyroidism	-----	13 pages
Risk Factors	----- pages 1-2	
Clinical Presentation	----- page 2	
Physical Exam	----- pages 2-3	
Diagnostics	----- pages 3-7	
CBC	----- page 3	
serum panel, urinalysis, imagine, TT4, fT4	----- page 4	
T3 Suppression, TSH Stimulation, TRH Stimulation	page 5	
Scintigraphy	----- pages 5-7	
GFR - Iohexol Clearance	----- page 7	
DDx Weight Loss + Polyphagia	----- page 7	
Hyperthyroidism and Renal Disease	----- pages 7-8	
Antithyroid drugs	----- page 8	
Thyroidectomy	----- pages 9-11	
Radioactive Iodine	----- page 11	
Low Iodine Diet	----- page 12	
Thyroid Carcinoma	----- page 12	
Prognosis	----- page 13	
PowerPoint Slides - Hypothyroidism	-----	11 pages
Introduction, Primary Hypothyroidism	----- page 1	
Secondary Hypothyroidism	----- page 2	
Cretinism (Congenital Hypothyroidism)	----- pages 2-3	

Section 3: Thyroid Gland - continued**Blue Tab**

PowerPoint Slides - Hypothyroidism - continued	-----	-----	-----	11 pages
Clinical Presentation	-----	-----	-----	pages 3-4
Thyroid Testing	-----	-----	-----	pages 4-6
TSH, TT4, fT4, Thyroid Antibodies	-----	-----	-----	page 5
TSH Stimulation, TRH Stimulation	-----	-----	-----	page 6
Diagnosis of Hypothyroidism, Euthyroid Sick	-----	-----	-----	page 6
Factors Affecting Tests	-----	-----	-----	pages 7-8
Treatment	-----	-----	-----	pages 8-10
Treatment - Special Exceptions	-----	-----	-----	page 9
Treatment Failure	-----	-----	-----	page 9
Thyroid Extracts, T3/T4 Combinations	-----	-----	-----	page 10
Myxedema Coma, Thyrotoxicosis	-----	-----	-----	page 10
Prognosis	-----	-----	-----	page 10
Feline Hypothyroidism	-----	-----	-----	page 11
Case - Eli	-----	-----	-----	page 11
<hr/>				
Client Information - Feline Hyperthyroidism	-----	-----	-----	4 pages
Client Information - Canine Hypothyroidism	-----	-----	-----	4 pages
Client Information - Levothyroxine	-----	-----	-----	1 page
<hr/>				
Short Story - Eli	-----	-----	-----	2 pages
<hr/>				
Lab Form - Michigan Iohexol Clearance GFR Pamphlet	-----	-----	-----	2 pages
Lab Form - Michigan Toxicology Submission Form (Iohexol)	-----	-----	-----	2 pages

Web Resource: <http://wendyblount.com> Thyroidectomy Video

Section 4: Diabetes Mellitus**Orange Tab**

PowerPoint Slides - Diabetes Mellitus	-----	-----	-----	13 pages
Diagnosis of Diabetes	-----	-----	-----	pages 1-2
Potassium, Phosphorus and the Diabetic	-----	-----	-----	page 2
Initial Work-Up	-----	-----	-----	page 2
Insulin Regulation	-----	-----	-----	page 3, 7
Insulins for Dogs	-----	-----	-----	page 3
Insulins for Cats	-----	-----	-----	page 4
Once a Day Insulin, Oral Hypoglycemics	-----	-----	-----	page 4
Nutrition for Diabetic Dogs	-----	-----	-----	page 4
Nutrition for Diabetic Cats	-----	-----	-----	page 4-5
Weight Loss	-----	-----	-----	page 5
Case: Flop the Diabetic with Ketoacidosis	-----	-----	-----	pages 5-7
Glucose Curves	-----	-----	-----	pages 8-11
Urine Testing	-----	-----	-----	page 8

Section 4: Diabetes Mellitus - continued**Orange Tab**

PowerPoint Slides - Diabetes Mellitus - continued	-----	-----	-----	13 pages
Monitoring, Remission	-----	-----	page 11	
Insulin Resistance	-----	-----	page 12	
Case: Dysregulation - Willie	-----		pages 12-13	

Reference Chart - IV Potassium Supplementation	-----	-----		1 page
Reference Handout - Bicarbonate Administration	-----	-----		3 pages

Client Information - Diabetes in Dogs	-----	-----	-----	5 pages
Client Information - Diabetes in Cats	-----	-----	-----	8 pages
Client Information - Instructions for Diabetic Pet	-----	-----	-----	4 pages

Canned Cat Food Nutritional Information	-----	-----	-----	17 pages
Canned Cat Food Nutritional Information - International Foods				5 pages

Dry Cat Food Nutritional Information	-----	-----	-----	6 pages
Dry Cat Food Nutritional Information - International Foods			-----	1 page

Client Information - Home Testing - Ear Prick				4 pages
Client Information - Home Testing - Lip Prick				2 pages
Client Information - Insulin				2 pages

Web Resource: <http://wendyblount.com> - IV fluid rate calculator

Web Resource: <http://wendyblount.com> Cat Food Percentage Calories Calculator

Section 5: Adrenal Gland**Yellow Tab**

PowerPoint Slides - Hyperadrenocorticism	-----	-----	-----	17 pages
Clinical Signs - Dogs vs. cats	-----	-----	pages 1-2	
Respiratory Signs	-----	-----	page 2	
Sudden Acquired Retinal Degeneration Syndrome (SARD)			page 2	
Hyperadrenocorticism and renal Disease	-----		page 2	
Radiographs	-----	-----	page 3	
Diagnostics	-----	-----	pages 4-11	
Screening Tests: urine creatinine:cortisol	-----		page 4	
Screening Tests: ACTH Stimulation	-----		pages 4-6	
Screening Tests: Low Dose Dexamethasone Test			pages 7-8	
Differentiating Tests: Abdominal Ultrasound			pages 8-9	
Differentiating Tests: High Dose Dexamethasone Test			pages 9-10	
Combined ACTH Stim and Dex Suppression	-----		page 10	
Differentiating Tests: Endogenous ACTH	-----		page 10	
Atypical ACTH Stimulation	-----	-----	page 10	
Baseline Cortisol	-----	-----	page 10	
Treatment	-----	-----	pages 10-	

Section 5: Adrenal Gland - continued**Yellow Tab**

PowerPoint Slides - Hyperadrenocorticism - continued	-----	-----	17 pages
Trilostane	-----	-----	page 11
Lysodren	-----	-----	pages 12-13
Ketoconazole	-----	-----	page 14
Selegiline	-----	-----	page 14
Adrenalectomy	-----	-----	page 15
Radiation Therapy	-----	-----	page 15
Hypophysectomy	-----	-----	page 15
Ancillary Treatments	-----	-----	page 15
Prognosis	-----	-----	pages 15-17
PowerPoint Slides - Hypoadrenocorticism	-----	-----	12 pages
Introduction	-----	-----	page 1
Case: Dot - Hypoglycemia	-----	-----	pages 1-2
Case: Javi - Megaesophagus	-----	-----	pages 2-3
Case: Lulu - Azotemia	-----	-----	page 4
Case: Doc - Hypercalcemia	-----	-----	page 5
Case: Chevy - Melena	-----	-----	pages 5-7
Case: Kelsey - Tremors	-----	-----	page 8
Addison's and Hypotension	-----	-----	page 8
ACTH Stimulation test	-----	-----	page 8
Na:K Ratio	-----	-----	pages 8-10
Treating the Crisis	-----	-----	pages 10-11
Chronic Therapy	-----	-----	page 11
Polyendocrine Syndrome	-----	-----	pages 11-12
Diagnostic Handout - Adrenal Function Tests	-----	-----	5 pages
Lab Form - University of Tennessee Endocrinology Lab	-----	-----	5 pages
Diagnostic and Treatment Handout - Canine Hyperlipidemia	-----	-----	3 pages
Client Information - What is Cushing's Disease?	-----	-----	3 pages
Client Information - Classifying Cushing's Syndrome	-----	-----	3 pages
Client Information - Treating Pituitary Hyperadrenocorticism	-----	-----	5 pages
Client Information - Treating Adrenal Tumors	-----	-----	4 pages
Client Information - Mitotane	-----	-----	2 pages
Client Information - Ketoconazole	-----	-----	2 pages
Client Information - Selegiline	-----	-----	1 page
Client Information - Prednisone	-----	-----	2 pages
Client Information - Fludrocortisone	-----	-----	2 pages
Client Information - DOCP	-----	-----	2 pages

Web resource: <http://wendyblount.com> Vet Student Addison's Video

Section 6: Gonadectomy and Glucocorticoids

Green Tab

PowerPoint Slides - Glucocorticoids for Neurologic Disease	-----	4 pages
Head trauma, CRASH Study	----- page 1	
Acute Spinal Cord Trauma	----- pages 1-2	
SoluMedrol Protocols	----- page 2	
CNS Trauma, Type II Disc Disease	----- page 2	
CNS Neoplasia, Infectious Meningoencephalitis	----- page 3	
GME, Necrotizing Meningoencephalitis	----- page 3	
Steroid Responsive Meningitis, Hydrocephalus	----- page 4	
Cerebrovascular Accident, Summary	----- page 5	
PowerPoint Slides - Spay Neuter Update	-----	3 pages
Studies that brought about questions	----- pages 1-2	
OHE and Mammary Gland Tumors	----- pages 2-3	
Lifetime Studies and Conclusions	----- page 3	
<hr/>		
Article - Glucocorticoids for Neurologic Disease - Levine	-----	8 pages

Section 7: Hypercalcemia

Pink Tab

PowerPoint Slides - Hypercalcemia	-----	13 pages
Introduction, Differential Diagnosis, Symptoms	----- page 1	
Sequellae, Hypercalcemia and the kidneys	----- page 2	
Diagnosis	----- page 3	
Case: Happy - Lymphosarcoma	----- page 3	
Hypercalcemia of Malignancy	----- pages 3-4	
Case: Sunshine - Vitamin D Toxicity	----- page 4-6	
Case: Doc - Addison's Disease	----- page 6	
Case: Scooter - Cholecalciferol	----- page 7	
Rena Secondary Hyperparathyroidism	----- page 7	
Case: Samantha - Granulomatous Disease	----- pages 7-8	
Case: Buster - Anal Sac Carcinoma	----- pages 8-9	
Feline Idiopathic Hypercalcemia	----- pages 9-10	
Primary Hyperparathyroidism	----- pages 10-11	
Treatment	----- pages 11-12	
Pattern Recognition	----- pages 12-13	
<hr/>		
Diagnostic Chart - Blood Tests for Hypercalcemia	-----	1 page
Diagnostic Algorithm - Blood Tests for Hypercalcemia	-----	1 page
Diagnostic Algorithm - Low Ionized Calcium	-----	1 page
Diagnostic Algorithm for the Sick Hypercalcemic Dog	-----	1 page
Diagnostic Algorithm for the Well Hypercalcemic Dog	-----	1 page
Treatment Algorithm for the Sick Pet with ionized Hypercalcemia	-----	1 page

Section 7: Hypercalcemia - continued**Pink Tab**

Treatment Algorithm for the Well Dog with Hypercalcemia	-----	1 page
Treatment Algorithm for the cat with Idiopathic Hypercalcemia	-----	1 page
<hr/>		
Client Information - Hypercalcemia		6 pages
Client Information - Parathyroid Gland Tumors		3 pages
<hr/>		
Short Story - Buster		2 pages

Section 8: Insulinoma**Gold Tab**

PowerPoint Slides - Insulinoma	-----	8 pages
Clinical Signs	-----	page 1
Physical Exam, Initial Diagnostics	-----	page 2
Differential Diagnosis Fasting Hypoglycemia		page 2
Pattern Recognition	-----	pages 2-3
Diagnosis of Fasting Hypoglycemia	-----	page 3
Whipple's Triad, Insulin & Glucose Assays	-----	page 3
Insulin:Glucose Ratio, Fructosamine	-----	page 4
Laparotomy	-----	pages 4-5
New Methylene Blue Test	-----	page 6
Medical Therapy	-----	pages 6-7
Remission, Prognosis	-----	pages 7-8
