**DATE:**

**GI LABORATORY USE ONLY**

Date Received: _____

Accession #: _____

Check #: _____

Charges: _____

Amt. Received: _____

## PATIENT DETAILS

One animal per submission form

Owner's Name: _____

Animal Name: _____

Species: Dog Cat Other( ) Age: ____ years ____ months

Breed: _____ Sex: M F MC FS

Your Internal Identifier: _____

**IMPORTANT NOTES:**

**SEPARATE SERUM FROM CLOT BEFORE SHIPPING**

Both hemolysis and lipemia can interfere with serum test performance.

All serum samples should be collected after withholding food for 12-18hrs (6-8hrs for diabetic patients).

Fecal samples for α1-P1 must be frozen in GI Lab tubes upon collection and shipped overnight.

Use ONLY FedEx or UPS for all shipping and include at least one frozen gel ice pack.
**Do not use the U.S. Postal Service as this may cause a delay in delivery.**

## TEST(S) ORDERED - PLEASE CHECK BOXES

### SERUM Submissions

| | | |
|---|---|---|
| TLI, PLI, Cobalamin, Folate (2.0 ml fasted) | $72.00 | ☐ |
| TLI, Cobalamin, Folate (1.0 ml fasted) | $52.00 | ☐ |
| PLI, Cobalamin, Folate (1.0 ml fasted) | $52.00 | ☐ |
| TLI, PLI (1.0 ml fasted) | $52.00 | ☐ |
| Cobalamin, Folate (1.0 ml fasted) | $36.00 | ☐ |
| TLI (1.0 ml fasted) | $29.00 | ☐ |
| PLI (0.5 ml fasted) | $29.00 | ☐ |

**Serum PLI (Spec cPL or Spec fPL) will be run only within panels or alone as a follow-up test.

| | | |
|---|---|---|
| Canine C-reactive Protein (0.5 ml fasted) | $45.00 | ☐ |
| Bile Acid: Pre-feeding (1.0 ml fasted) | $15.00 | ☐ |
| 2 hr: Post-feeding (1.0 ml) | $15.00 | ☐ |
| MMA (0.5 ml fasted) | $52.00 | ☐ |
| Gastrin (0.5 ml fasted) | $29.00 | ☐ |
| Triglycerides (0.5 ml fasted) | $15.00 | ☐ |

### FECAL Submissions

**Canine Fecal α1-Proteinase Inhibitor** $44.00 ☐

**A set of 3 samples for α1-P1 must be submitted when test is selected. Fecal α1-P1 collection tubes (15 for $25.00)

To order, please indicate the number of boxes needed: _____

**Canine Microbiome Dysbiosis Index** $44.00 ☐

**Canine Enteropathogen Panel** $110.00 ☐

Canine panel includes PCR testing for Clostridium perfringens enterotoxin gene, net F toxin gene-C. perfringens, C. difficile, Campylobacter jejuni and coli, canine parvovirus, Salmonella spp., and IFA testing for Giardia and Cryptosporidium

**Feline Enteropathogen Panel** $120.00 ☐

Feline panel includes includes PCR testing for Clostridium perfringens enterotoxin gene, net F toxin gene-C. perfringens, C. difficile, Campylobacter jejuni and coli, feline panleukopenia virus (FPV), Salmonella spp., Tritrichomonas foetus, and IFA testing for Giardia and Cryptosporidium.

**Real-time PCR Assays (first PCR assay $35.00, each additional $12.00)**

- Tritrichomonas foetus ☐
- Campylobacter jejuni and C. coli ☐
- Heterobilharzia americana ☐
- Canine Parvovirus (CPV-2) ☐
- Feline Panleukopenia virus (FPV) ☐
- Salmonella spp. ☐
- Net F toxin gene - C. perfringens ☐

**Immunofluorescence Assay (IFA)**

*Giardia* and *Cryptosporidium* $35.00 ☐

**Bacterial Toxin Assay (ELISA)**

*Clostridium difficile* Toxin A and B $29.00 ☐

*Clostridium perfringens* enterotoxin $29.00 ☐

PAYMENT METHOD: ☐Please Bill Me ☐Check Enclosed (make payable to GI Lab - TAMU)

We cannot accept packages that are marked "Bill receiver". Please use our pre-printed shipping labels to save on shipping!

Prices valid as of January 2017
