PROVIABLE™

FOR DOGS & CATS
NATURALLY REESTABLISHING INTESTINAL HEALTH

PROVIABLE™

FOR DOGS & CATS

MULTI-STRAIN PROBIOTICS THAT NATURALLY REESTABLISH INTESTINAL HEALTH

CONTAINS A SOURCE OF LIVE (VIALE) NATURALLY OCCURRING MICROORGANISMS

PROVIABLE™

F O R D O G S & C A T S

Multi-strain Probiotic

Contains seven beneficial bacterial species:

Enterococcus faecium,
Streptococcus thermophilus,
Lactobacillus acidophilus,
Lactobacillus bulgaricus,
Lactobacillus casei,
Bifidobacterium bifidum,
Lactobacillus plantarum

Billions of viable probiotic microorganisms, guaranteed (per administration)

- Ensures a consistent inoculum of probiotics into the gastrointestinal tract
- Provable-KP paste contains 0.5 billion CFU's* per gram†
- Provable-DC capsules contain 5 billion CFU's per capsule

Microencapsulated probiotics

- Protects the microorganisms from gastric degradation
- Allows stability at room temperature

*CFU - Colony forming unit
†One gram equals approximately one mL

Contains prebiotics

- A carbohydrate food source that selectively helps encourage the growth of the Provable probiotics within the intestinal tract
- Helps the probiotic microorganisms compete with pathogenic bacteria for adhesion sites within the intestinal mucosa

The probiotics in Provable function to:

- Compete with pathogenic bacteria to colonize the intestinal mucosa
- Activate and support the immune system
- Aid in the breakdown of complex food particles by stimulating enzymes
- Establish healthy intestinal microflora in young and adult dogs and cats

Two formulations to naturally reestablish intestinal health:

PROVIABLE™-KP

- Paste for acute phase of diarrhea contains **kaolin** and **pectin**, billions of beneficial Provable probiotics per daily administration, and prebiotics
- Helps normalize intestinal function and firm stools
- Available in two tube sizes to properly dose cats and dogs of all sizes
- Palatable paste is easily administered in a graduated tube

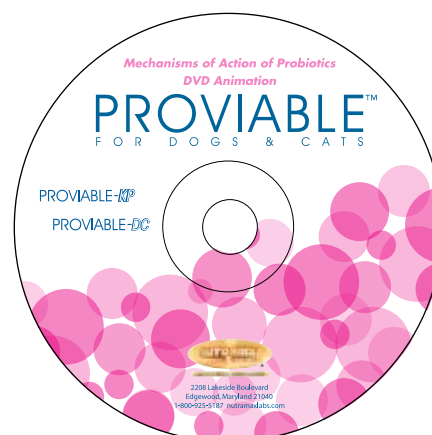

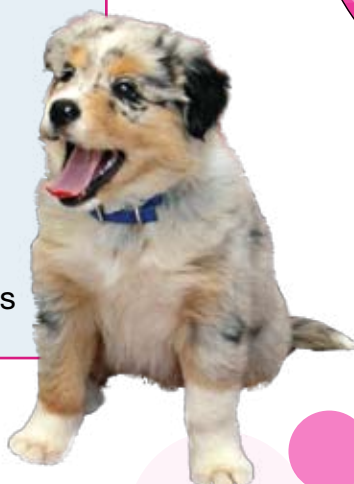

PROVIABLE™-DC

- Capsules should be given with Provable-KP for acute phase of diarrhea and for long-term use as needed for intestinal health and balance
- Contains billions of Provable probiotics with prebiotics in each capsule
- Single size sprinkle capsule for easy administration to cats and dogs

Indications:

Helps to reestablish healthy intestinal microflora after imbalances have occurred due to:

- Antibiotic use
- Dietary indiscretion
- Food sensitivities
- Stresses due to travel and kenneling
- Weaning of puppies and kittens
- Metabolic disturbances
- Immune system related gastrointestinal conditions
